Nichrome Fusing Wire

This wire is ideal for fusing encased metal loops on to your glass pieces. This high temperature wire can withstand temperatures up to 2000 F. Simply place two ends of this wire into your art work and fuse to add a wire hook or loop to your piece. Wire is sold in one foot lengths.

This wire is 18, 20, or 22 gauge. Silver color of wire can be obtained again after firing by hand polishing with steel wool.

| | | |
|-------|-------------------------------|--------|
| 10680 | 18 GAUGE NICHROME FUSING WIRE | \$1.25 |
| 10681 | 20 GAUGE NICHROME FUSING WIRE | \$1.35 |
| 10682 | 22 GAUGE NICHROME FUSING WIRE | \$1.25 |

BRACELET FORMING KIT

A great way to simplify the process of making fused bracelets. It comes with two metal molds and graphite tweezers for shaping. Instructions are included.

| | | |

KILN FIRING PAPER

This kiln paper is sold by the sq. foot. It is uniform, lightweight, and flexible. It will keep glass from sticking while inside the kiln. It has high-temperature stability. Good dielectric strength

and excellent corrosion resistance. You may also purchase the kiln paper in 6 sheet quantities. It is available in 1/16" or 1/8" thickness.

| | | |
|---------------|------------------------|---------|
| kilnpaper1/16 | KILN FIRING PAPER 1/16 | \$14.40 |
| kilnpaper1/16 | KILN FIRING PAPER 1/16 | \$3.00 |
| kilnpaper1/32 | KILN FIRING PAPER 1/32 | \$6.40 |
| kilnpaper1/32 | KILN FIRING PAPER 1/32 | \$2.00 |

KILN BOARD 1"

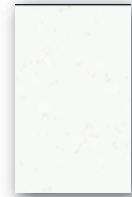

This kiln board is 24" x 36". It is strong while maintaining a light weight. It protects refractory surfaces from thermal shock. Also, it has high temperature stability and excellent resistance to thermal shock and chemical attack. Available in full or half sheets.

| | | |
|------------|---------------|---------|
| kilnboard1 | KILN BOARD 1" | \$35.00 |
| kilnboard1 | KILN BOARD 1" | \$60.00 |

KILN FIRING PAPER 1/8

This kiln paper is sold by the sq. foot. It is uniform, lightweight, and flexible. It will keep glass from sticking while inside the kiln. It has high-temperature stability. Good dielectric strength

and excellent corrosion resistance. You may also purchase the kiln paper in 6 sheet quantities.

| | | |
|--------------|-----------------------|-----------------|
| kilnpaper1/8 | KILN FIRING PAPER 1/8 | \$19.20 6 sheet |
| kilnpaper1/8 | KILN FIRING PAPER 1/8 | \$4.00 1 sheet |

Boron Nitrate Spray Mold Release

Boron Nitrate Spray Stainless Steel Mold Release. No more nasty primers are needed for our stainless steel molds! Just spray this product on your mold, let dry and slump directly. Glass will release when cool! Once mold is sprayed release will remain intact for more than one firing. 13 oz bottle.
